Community hub for makers and tinkerers!

Unit F, Pitt Road, Freemantle,
Southampton, SO15 3FQ

We are a diverse community of hobbyists (and professionals!) who like to make things - physical, digital or hybrid. Our volunteer-run 1200sqft Makerspace contains a dedicated workshop with more tools than your shed, a functional kitchen, a sofa/library area, 3D printing stations, electronics/soldering stations, an interactive whiteboard; and that's just scratching the surface!

No experience/knowledge is necessary to join us - our friendly community loves sharing skills, experience and tools. Work alone or with others, on big projects or small!

joinus

Membership is pay what you can,
visitors welcome!

For more information, please visit
Tuesdays from 7:30pm or Saturdays
from 2pm - or contact us.

Some of what we do: - wood and metal work
- costume & prop design - sculpture - sewing - knitting
- baking - 3D printing - programming - electronics
- microcontrollers - PCB design/manufacture - robotics -
home automation - quadcopters - and so much more!
