SOUTHAMPTON MAKERSPACE

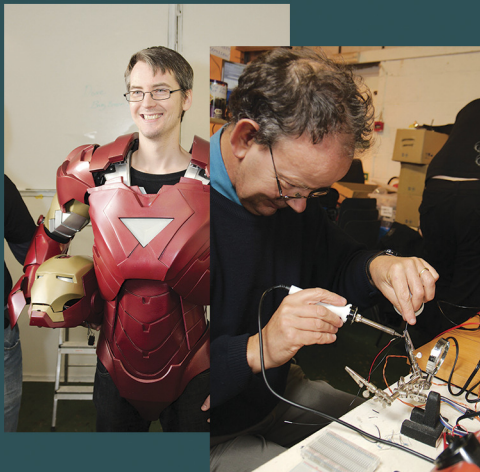

About Us

A non-profit friendly and inclusive place for people who like making things (physical, digital or otherwise) to share knowledge, experience and tools.

The interests of the current membership focus on subjects of wood- and metal-work, costume and prop design, photography, 3D printing, microcontrollers, robotics, home automation and programming. We have a wide array of tools available to facilitate these activities and are constantly looking to expand our offering.

Membership is not required to use the space, just pop in during our Opening Hours to see what we're about - your first visit is free but for further visits we recommend a £5 donation. You may even consider becoming a member and joining us on our journey to bring maker-culture to everyone!

Opening hours

One of our volunteer keyholders opens the space at these times every week (except for public holidays), please do visit:

Tuesdays 7:30pm-10pm
Thursdays 7:30pm-10pm
Fridays 9:30am-12:30pm
Saturdays from 2pm

Keyholders can also use the space whenever they like thanks to our RFID door lock.

More Information

Find out more on our website <http://www.somakeit.org.uk>

We're currently located in Liners' Industrial Estate, Unit K6, Pitt Road, Freemantle, Southampton SO15 3FQ.
